RELAX. IT'S  Master Spas®

BY MASTER SPAS

Add some clarity to your life.

You may not think of a spa as life-changing, but Clarity isn't just any hot tub. Clarity Spas offer relaxation, recreation, comfort and wellness on a whole new level. The delight begins as soon as you relax into Clarity's comforting ergonomic seats and surrender to the fully adjustable therapeutic massage jets, each one strategically placed to offer the most benefits and comfort.

Discover the joy Clarity can bring to your life.

ERGONOMIC DESIGN – Take a seat in our finely crafted, form-fitting seats that perfectly fit the contours of your body for unexpected comfort.

STRESSRELIEF™ NECK AND SHOULDER SEAT – This special seat helps release the day's tension with specially designed jets focused on your neck and shoulders in an exclusive design.

HYDROTHERAPY JETS – Power away the day's stress with perfectly positioned and adjustable jets.

CASCADE WATERFALL – Enjoy the soothing sights and sounds of gently falling water with a cascading waterfall.

LED LIGHTING – Adjustable LED lighting with color options creates a sense of tranquility.

STAINLESS STEEL JETS – A classy look with superior durability.

NOISE REDUCTION SYSTEM – Advanced engineering reduces pump and motor vibration by an amazing 150% compared to industry standards. A quieter spa means more relaxation.

ENERGY EFFICIENT – Thanks to our strident Master Crafted building method and Icynene foam insulation, our spas have energy efficiency built in so they're easy to own and easy to enjoy.

Clean, Pure Water

ECOPUR® WATER PURIFICATION – You want to spend your time enjoying your spa, not worrying about maintenance. So we created EcoPur – an exclusive filtration system that takes the work out of maintaining your hot tub. Using the same multi-stage filtration techniques as Mother Nature, EcoPur relies on a unique blend of copper and zinc that creates an electro-chemical reaction to eliminate many micro-organisms and remove heavy metals. Best of all, it is designed so your spa can be ready to use at any time, without the hassles of maintenance so you can concentrate on having fun.

Master Force™ Bio-Magnetic Therapy System

We're ahead of the curve in the re-emergence of bio-magnetic therapy. Our patented system applies magnetic therapy to pressure points along the neck, shoulders and back.

Magnetic therapy was used for centuries to relieve pain, improve circulation, reduce swelling and alleviate stiffness. Today, more and more doctors and physical therapists are returning to the healing effects of magnetic therapy. In fact, nearly 70% of all professional athletes regularly use magnetic therapy for pain relief and performance enhancement. Our exclusive, patented system applies strategically placed magnets to the neck, shoulders and back as part of our StressRelief Neck and Shoulder Seat.

MASTER SPAS CARES FOR KIDS

Master Spas and our dealers were part of building a new school complex in 2013 for the NAZ Children's Centre in Rose Hall, Jamaica. This specialized school does an outstanding job with children ages 4-11, as well as working with children with developmental problems. With every Master Spas Swim Spa sold, a donation will be made to the NAZ Children's Centre Scholarship Fund.

In our hometown, we are honored to partner with the Crossing School of Business and Entrepreneurship, a faith-based high school that turns at-risk youth into tomorrow's leaders. Master Spas provides operational space for vocational training and a micro business.

MASTER SPAS CARES FOR CURES

Master Spas is pleased and proud to assist two foundations dedicated to finding and funding the cures for life-hindering diseases.

Along with the Lupus Foundation of America, we have initiated a campaign to help raise awareness and find a cure for this debilitating disease that affects more than 1.5 million Americans. Part of the profit from each "Lights for Lupus" spa model will go to the Lupus Foundation. Together, we can fund and find the cure.

Master Spas has joined forces with the Vera Bradley Foundation for Breast Cancer to eradicate breast cancer, a life-threatening disease, by providing financial support for research and research-related projects.
