## The Titan™ HardCover

The only cover you'll ever need!

The patent-pending Titan HardCover is molded from durable, color-coordinating resin, which is able to withstand the harshest of environments while providing the highest degree of safety, along with a unique energy-saving insulation method. The Titan HardCover is molded hollow, then filled with a proprietary formulation of insulating foam. This foam is encapsulated within the resin cover, thus protecting it from moisture and the harsh chemical vapor barrier that forms between the water's surface and the underside of covers.

- Tested to hold over 1,000 lbs.
- Fully insulated for efficient heat retention
- Easy for an adult to open... but not a child
- Won't take on water weight, odor or mold
- Limited Lifetime Warranty!
- Minimal view obstruction
- Spas 85" x 85" and larger feature the NEW hidden assist, virtually effortless ULTRASTRONG CoverLift

A proprietary formulation of foam insulation is encapsulated within the resin cover.

### Titan™ HardCover vs. soft covers.

- Unprecedented strength
- Maximum heat retention
- No mold, mildew or odor
- Never needs to be replaced
- Easy to open and close
- No water weight gain
- Pre-installed

All ULTRASTRONG's lift mechanisms are hidden except the lever!

And the cover opens all the way to the floor!

## ULTRASTRONG CoverLift

Even our full-size spas are easy to open and close with the new patent-pending ULTRASTRONG CoverLift system on our Titan™ HardCovers!
