In today's world, there are many reasons to own an Elite Spas hot tub. Your own private sanctuary far away from the hassles of everyday life or a relaxing environment to reconnect with family and friends. The massaging action of the jets and gentle warmth of the water will relieve tension and anxiety for a greater sense of inner well being. Whatever you desire, your new Elite Spas hot tub is designed for a luxurious spa experience in the convenience of your home.

Elite Spas™ hot tubs have been carefully engineered for long-term durability, efficiency and complete hydrotherapy. Throughout North America, MAAX® Spas brands have earned the trust and confidence of consumers. Rest assured, your new Elite Spas™ hot tub will be everything you expect – built for maximum durability and the most luxurious spa experience available.

# Complete Connectivity

## Complete Control at the Tip of Your Finger

Why go out in the cold to check your hot tub when you can do it from the comfort of your home or office. With the Elite Spas™ hot tub app you have complete control of your 4100+ series hot tub from anywhere. Control the temperature, change filter cycles to save money or turn on the jets and lights before slipping into the soothing waters.

Download the App. The Elite Spas™ control app is available through iTunes, the App Store, or Google Play. Search "Elite Spas - spa control".

Optional on 4100+ model hot tubs.

# Hydrotherapy Jets

## Euro Jet

- Engineered for the entry point of ozone into the spa

## Cluster Adjustable Jet

- Engineered for targeting precise pressure points and close groupings
- Relieves muscle tension and provides a massage that penetrates deep into the muscles

## XL Adjustable Massage

- Pulsating massage action
- Relaxes muscle tension and soothes aches and pains

## Standard Directional

- Exact size for precision placement
- Ideal massage for small sensitive areas

## LS Adjustable Directional

- A powerful and deep massage
- Adjust flow rate with a simple twist

## XL Adjustable Directional

- A powerful, vigorous deep muscle massage for larger areas
- High volume, perfect for tired muscles due to work or play

## Standard Adjustable Roto

- Swirling motion to avoid over stimulation
- Massages smaller muscle groups

## LS Adjustable Roto

- Swirling massage for mid-sized muscle groups
- Adjustable for fast or slow kneading action

## XL Adjustable Roto

- Swirling massage action for larger areas
- Personal hands on massage feeling

# DEEP MASSAGE

# SOFT MASSAGE

## A Luxurious Spa Experience

*You will enjoy a variety of healing and relaxing experiences all in the convenience of your home.*

### Deep Tissue Massage

A deep tissue massage will relieve pain and tension locked deep in the muscles and connective tissue of the body. Additional circulation, promoted by jet stimulation, will release tension and promote a healing reaction in injured areas. The deep, soothing streams of jet-propelled water from our QuadraJet System are a great example of just one of the jetting array systems by Elite, designed to loosen muscles and harmonize the body's own healing reaction.

### Soft Tissue Massage

In some cases, extremely tired or injured muscles need a softer touch. In this case, supportive seating combined with the direct air injection technology of AeroMAAX is the right choice. AeroMAAX strategically places air injectors throughout the spa. This gentler massage promotes blood flow and "vacillation," the awakening of smaller blood vessels through the body. The effect is mild vibration in the spa, to soothe, refresh and heal.

### BackMAAX™

The ultimate massage system, BackMAAX, features six jets strategically placed to cover the entire back. Every jet is fully adjustable to customize your massage for the specific task at hand. BackMAAX™ is capable of a pulsing surface massage, or a penetrating, swirling motion to reach deep into your muscles. The BackMAAX seat is extra deep for full-body immersion, and features the most powerful massage of all the Elite hydrotherapy systems.

### Foot Relief Station

Therapeutic foot massage relaxes the entire body by increasing circulation via points on the foot which correspond to all parts of the body. Strategically positioned and fully adjustable jets have been designed to target the entire foot with streams of stimulating pressure.

### Neck Relief Station

Lean back into this unique cushion of comfort for everyone's favorite massage: neck and shoulder. Tense neck and shoulder muscles are quickly relieved as positioned jets do the work for you, creating absolute bliss.

*Available on 7000+ models.*

# Clean Clear Water

## Clean, Clear Water

For your spa to be easy to operate and maintain, Elite Spas' engineers created the ClearMAAX™ water management system. It is programmable to your schedule and easy to set the right temperature. The system lowers energy costs using the "Smart" control system which turns on your heater and pumps only to clean or heat.

## M7 Technology

This advanced, state-of-the-art spa controller provides the ultimate in ease of use, safety and reliability for every spa user. M7 technology is a revolutionary new hardware/software platform that completely eliminates mechanical sensor switches and remote through-wall temperature sensors. The M7 platform features two identical solid state sensors that mount inside the heater manifold. These "Smart Sensors" accurately and reliably measure water temperature while monitoring critical water conditions without the possibility of failure due to mechanical switch malfunction.

## ClearMAAX™

ClearMAAX™ is a high-rate filtration system which efficiently wraps the spa's flowing water around two specially designed filters. The results? Reduced chemical usage and fully cleaned water every 5-6 minutes. Elite Spas™ exclusive ClearMAAX™ utilizes 100 sq/ft filtration or optional "purification" grade filters in the cleaning process. Balanced turnover of all the spa's water is guaranteed with multiple "child safe" suction. The remarkably clean ClearMAAX™ system maintains a 5-6 minute complete spa turnover rate regardless of whether you are using a therapy or filtration setting.

## 56 Frame Pump

30% larger than pumps commonly used by other spa brands, Elite Spas' 56 Frame Pump has many advantages. The right pump is imperative to nearly all basic functionalities of spa operation. Elite Spas' isolation mounted pump incorporates four shock absorbers to absorb vibration and noise. Because of its size, the 56 Frame Pump has lower amp draw to reduce operating costs. High water flow combined with quiet operation - that's better performance.

## Clean Zone™

Clean water is the cornerstone of spa enjoyment. Elite Spas' CleanZone™ water purification system will automatically maintain healthy, crystal clear water while greatly reducing chemical maintenance. CleanZone™ is an ultraviolet plasma cell ozone system that disinfects and cleans your spa water. And best of all, CleanZone™ does not require any cleaning or maintenance whatsoever. Enjoy clean water throughout the life of your spa.

## Clean Zone™ II

The Clean Zone™ II System uses the power of UVC light, the same technology utilized in many communities around the world to purify drinking water. Clean Zone™ II kills 99.9%\* of microorganisms, bacteria, viruses and parasites. This system is the perfect blend of hygiene, purity and technology.

# Northern Exposure

Northern Exposure® is the ultimate hot tub insulation system. This unique thermal barrier technology recycles the free heat energy for more efficient heating and lower energy costs. All four sides of the spa, plus the floor and cover are lined with reflective copper material to reflect radiant heat energy generated from the pumps back into the spa. Heat is absorbed back into the plumbing helping raise and maintain water temperature. Finally the entire exterior of the hot tub is wrapped in 3M Thinsulate™ Insulation, the same incredible material utilized in winter clothing. This three layer patented system ensures energy created by the spa stays in the spa.

*Available on 5100+ models.*

## BlueMAAX™

Exclusive to MAAX Spas, the Northern Exposure® insulation system also features the eco-friendly 'BlueMAAX' insulation. Made from recycled natural fiber, it is approved by the U.S. Green Building Council. The insulation contains no chemical irritants, is treated with a borate-based solution to prevent mold/mildew growth, pest infestation, and acts as a fire retardant. BlueMAAX® replaces the urethane foam in "foam filled" hot tubs. (Foam filling produces volatile organic compounds (VOC's) which are harmful to the environment.)

## Insulating Cover

Elite Spa's premium grade **insulating covers** contain a unique copper lining, removable heat sealing pillows to vent excess heat off in the summer and a tailored fit to keep the heat in when cooler. The cover also acts as an important safety barrier to the spa.

*Lifetime insulation warranty on all steel frame products.*

**3M**  
**Thinsulate™**  
INSULATION

3M and Thinsulate are trademarks of 3M

# Engage The Senses

## Sight, Sound, Touch, Taste and Smell

Elite Spas provides the opportunity to engage all your senses at your convenience. Chromatherapy engages your sight with an array of colors to soothe. Listen to your favorite music or the sound of cascading water. Relax with your favorite beverage as the jets massage away the day's stresses. Add your own personal touch with the scent of your favorite candles placed on the wide rim.

## Acoustic Enjoyment

Your favorite music is now at your fingertips with Elite Spas' Bluetooth Music System. This system is both waterproof and corrosion resistant. Our speakers boast a crisp, clear sound for true music fidelity.

## Illuminated Cup Holders

A comforting dip in a hot tub accompanied by a glass of your favorite beverage on the Elite Spas' lighted cup holder is the perfect combination.

## Cascading Water

Elite Spas' alluring waterfeatures are the ideal compliment to an already perfect setting. Another reason to drift even further to a place where tension quickly fades away.

## Chromatherapy

Elite Spas' Chromatherapy Lighting is designed to stimulate the therapeutic effects of color combined with hot water. Chromatherapy is produced from an array of 1" LED lights placed strategically between massage stations for optimal effect. Each color can target a specific energy center promoting balance and healing throughout the body.

## Built-in Subwoofer

With Elite Spas' Bluetooth Music System, sound resonates through the water from a subwoofer integrated into the spa's substructure, allowing you to not only hear, but also feel your music.

## Bluetooth Technology

State-of-the-art Bluetooth technology puts the music at your fingertips. Enjoy your favorite artists and playlists anytime with this easy to use music system. Simply sync any Bluetooth compatible device, slip in to the soothing waters and enjoy.

## Speakers

Perfect for an evening of relaxation or an entire backyard gathering of friends: these innovative marine grade speakers are sure to give you superior sound quality.

# Four Thousand Series

## 4100

**Seating:**

# Attractive in Any Backyard

## Beauty Inside And Out

Elite Spas™ hot tubs are built with the most durable and beautiful materials. The DuraMAAX™ exterior comes in three different durable colors that won't fade or crack. The interior is made from the most beautiful acrylics. With eight colors to choose from, one will fit right into your backyard's style.

## Continuous Cast Acrylic

Every Elite Spas™ hot tub has an attractive interior finish made from continuous cast acrylic. The hard, non-porous surface resists stains, fading, scratches and chemical abuse. With the look of granite, pearl or metalecence, the extremely tough finish offers beauty and peace of mind. Attractive, versatile and easy to clean - it is sure to match any backyard design.

## Acrylic Colors

Sahara

Glacier Mountain

Storm Clouds

Pacific Rim

Gypsum

Tuscan Sun

Silver Marble

Midnight Canyon

## DuraMaax™

Elite Spas' maintenance-free, all-weather DuraMAAX™ cabinetry is a state-of-the-art wood-alternative material that has the look and feel of natural wood. DuraMAAX™ has an incredible wood grain appearance and is offered in Teak, Grey or Mocha, it's the only difficult decision you'll have to make.

Teak

Grey

Mocha

- 40% lighter and 250% stronger than traditional wood frames
- Weatherproof
- Corrosion Free

# Steel Frame Construction

*Elite Spas steel framed hot tubs are built to provide optimal support and to help provide easier access for service with bolt-on panels.*

**ELITE Warranty**  
**Steel Sub-Structure - Lifetime**  
 Elite Spas Steel Sub-Structure is covered by a lifetime structural warranty.

**Bottom Pan**  
 Elite Spas' Bottom Pan interlocks with the steel frame, forming a superior foundation for the spa to rest on. The single piece unit locks in heat, seals out moisture and protects the spa from bugs and unwanted pests.

## Steel Sub-Structure

The Elite Spas™ Steel Sub-Structure is the key feature that sets Elite Spas™ apart. Engineered to exact tolerances, it allows for complete integration of all the systems of the spa. The lightweight, high-strength steel frame will never rot, warp, split or crack. It will never expand or contract with moisture, which over time can damage the spa's exterior. A 250% superior strength to weight ratio over conventional wood frames provides you with a lighter and stronger unit. Plus, with the addition of greater long-term corrosion protection, your sub-structure is weatherproof, requiring zero maintenance.

# Fifty One Hundred 5100

**Seating:**  
3 adults

**Dimensions:**  
66" X 83" X 30.5"  
(168 cm X 211 cm X 77cm)

**Water Capacity:**  
195 US gal/740 liters

**Weight (empty/full):**  
510 lb/231 kg empty  
2070 lb/939 kg full

**Electrical Requirements:**
