

## H.O.T. Zones™

**High Output Therapy** at Marquis® is unique in how we carefully plan the laminar flow of water from our pumps. It is channeled by our 3-2-1 Zone Control™ valves (which you can use to customize flow to specific areas), through high-flow tubing and out proprietary Hydrokinetic (HK™) jets. We carefully hydro-engineer how the gallons-per-minute flow available will provide the best massage benefit to each seat. We move higher volumes of water (high flow) through our system design to more effectively massage muscle mass and deep tissue without the force used by other brands (high pressure) that irritate the skin surface.

In various models you will find additional Shoulder, Lumbar, Foot, and Therapy Pillar H.O.T. Zones™ to give you the industry's best targeted control system for hydrotherapy to specific areas of the body that need more therapeutic massage. Marquis® truly is *The Ultimate Hot Tub Experience!*™ when it comes to therapy.

**“I was diagnosed with chronic fatigue and fibromyalgia, my doctor suggested that a spa would help my condition. I felt dramatically better after a short time of using it.”**

Nadene C. California

**Let's clear the air about clean water** You will probably hear somebody claim to have 'chemical free' hot tubs...or how salt water systems are a chemical free way to use a hot tub. The truth remains that every few years somebody new introduces another salt or UV system that doesn't 'need' sanitizers...another innovation that replaces the concepts that have protected people and their hot tubs for decades. Then a few years later these systems go away because they destroy the spa's operating equipment or fail to properly sanitize the water. We will continue to test all such 'innovations' for potential use in our hot tubs...and we still only recommend what we know is the safest and cleanest concepts for our customers and their hot tubs. Our water care management systems still provide *The Ultimate Hot Tub Experience!*™

**ConstantClean™ is the muscle** *The Ultimate Hot Tub Experience!*™ also means the cleanest water in the industry. And clean water comes from a superior system design for pristine water care. Our simple yet sophisticated ConstantClean™ system includes our unique Vortex™ filtration that pulls all of the water and debris from both the surface and the bottom of the vessel. It pulls more gallons-per-minute through more surface area of antimicrobial treated filter media than any other system. Then the pumps pull it through the heater and on to the ozonator that uses ozone to oxidize any bacteria or contaminants before converting back to oxygen. Minerals and sanitizers are added through our convenient in-line delivery system to further soften and sanitize the water on an on-going automatic basis.

**SmartClean™ is the brains** And all of this system is run by our SmartClean™ software on an automatic schedule after you use the hot tub and on a programmed daily timetable. You just add your sanitizer and any water balancing additives you need from time to time. This comprehensive management of the water care process results in less chemical use, longer periods between draining and refills, and crystal clean water for hours and hours of hot tub enjoyment. Truly, the ultimate in clean water!

## Constantly clean

### ConstantClean™ - go with the flow

1. Vortex skimmers skim surface contaminants such as body oils and lotions, then direct it into them into the filter cartridges which trap contaminants and particulates.
2. Water is also drawn from the footwell through a safety suction fitting.
3. Water is forced upward through the filter to trap debris that may settle at the bottom of the spa, thus, mixing, recirculating and filtering all the water, surface to floor. This translates to circulating about 24,000 gallons of water daily! (Based on using a MP160 pump.)
4. Filtered water is drawn into primary jet pump.
5. Water is routed through the high-flow heater assembly.
6. Ozonator's high-output, energy efficient design converts oxygen into activated ozone gas. Mazzei® injector mixes ozone with water which is then introduced into the mixing chamber.
7. Bacteria and other contaminants are oxidized before ozone converts back to oxygen.
8. Residual ozone and converted oxygen are reintroduced into the spa water through a dedicated fitting for maximum efficiency.
9. Water passes through the in-line sanitation system and is treated with natural minerals and bromine before reentering the spa.

MARQUIS  
The ULTIMATE Hot Tub Experience!

## MicroSilk®

Using a Marquis® hot tub with MicroSilk® is like giving your entire body an oxygen facial, moisturizing, hydrating and making your skin feel luxuriously silky as well as reducing fine lines and wrinkles. Micro-bubbles literally envelope your body in an effervescent cloud of oxygen.

The fact you experience this wellness with Marquis® is a major distinction. MicroSilk® technology has existed in the bath industry for several years. After each bath, all the water and impurities drawn from the skin are washed down the drain. In a hot tub, how you clean and reuse the water rather than dumping out wasted water each use is very important to understand. The best filtration/sanitation system in the industry...Marquis® proprietary ConstantClean™ water management with SmartClean™ technology...is the superior system that effectively and quickly restores your water back to pristine.

**“We no longer find it necessary to take something to help us sleep - 30 minutes in our Marquis Spa is all it takes!! And the joint aches associated with arthritis benefited from being able to direct the jets to just where it's needed. Who needs a pain reliever when you have a Marquis Spa!!!”**

Susan- Mauldin, SC

**MARQUIS® SIGNATURE COLLECTION FEATURES**

- control system Revolution™ 7/8/9 button; LCD screen navigation
- therapy pumps dual-speed pumps; 120 & 160 gpm/1201 & 605 lpm
- jet system Hydrokinetic HK™ array with stainless trim
- H.O.T. Zones™ high output therapy massage zones
- SmartClean™ automated/programmable clean cycle software
- ConstantClean™ integrated Vortex™ filtration with antimicrobial protection and multi-stage sanitization system
- Ceramaglass™ CD ozonator w/Mazzei™ injection
- MaximizR™ full foam insulation w/MoistureBloc™ perimeter wrap
- DuraShell® Structurbond™ fiberglass resin matrix
- DuraWood™ all weather, no maintenance, synthetic exteriors
- DuraBase™ solid sheet formed ABS plastic
- DuraCover® 2lb. density foam; heat shield skirt, linear heat shield
- reflexology Willamette River rock organic footwell pattern
- water feature (2) Lamiflo™ pop-ups
- headrests cushioned, resilient EVA material
- MoodMaker™ LED accent light configuration
- Aqua Ambiance™ LED spa light

**MARQUIS® SIGNATURE COLLECTION OPTIONS**

- Adagio™ audio Bluetooth™, subwoofer, twin speakers
- Adagio™ control RF audio control with remote
- Adagio™ port audio expansion port
- Wi-Fi transceiver & 1 year Cloud service
- Constellation™ LED interior/exterior color light system
- Aroma Infusions™ liquid aromatherapy dispenser
- performance 160 gpm pump upgrade on 1 pump models (domestic only)
- MicroSilk® available on: Epic, Euphoria, Promise, P, Resort, Spirit

**MARQUIS® ULTIMATE UPGRADE PACKAGE**

- Adagio™ audio Bluetooth™, subwoofer, twin speakers, RF audio remote
- Constellation™ LED interior/exterior color light system
- Aroma Infusions™ liquid aromatherapy dispenser
- Environments™ DuraWood™ Step II (varies Wish, Resort, Rendezvous)
- Cover Companion cover lift
- extras two plush towels, SpaZazz scents, Luther Loon

**RENDEZVOUS DISCOVERY CONFIGURATION**

- DuraWood™ with polysheet bottom, Glacier acrylic, no water feature plus optional upgrades: DuraShell® colors, ozone, pump upgrade (domestic only)

**DURASHELL® INTERIOR**

**HOT SEAT**  
HIGH OUTPUT THERAPY

The H.O.T. Seat is identified as the highest volume therapy seat location(s) in each model of hot tub.

**HOT ZONE**  
HIGH OUTPUT THERAPY LUMBAR ZONE

H.O.T. Zones™ are targeted arrays of HK™40 and Geyser high volume jet locations for superior massage action.

▶ = H.O.T. Zones

**The Ultimate Hot Tub Experience!™**

The Ultimate Hot Tub Experience!™ incorporates entertainment and experiences for all of the senses...including your audio and video entertainment, chromotherapy, aromatherapy, and much more. The Adagio™ audio option comes with FM radio and Bluetooth connectivity. An optional RF Remote control allows you to manage your personal playlist and an Audio Expansion Port upgrade can also provide connectivity for MP3 devices.

**Light up the night with Constellation™**

Constellation™ is an upgrade that will take you to the stars and beyond! LED points of light encircle the hot tub below the water line and highlight the exterior in all directions. Constellation™ gives you the ability to set your lighting at a favorite color or cycle through varying colors and transitions to entertain and relax you at the same time. Sights, smells, sounds and sensations: Marquis® embraces all of your senses to give you The Ultimate Hot Tub Experience!™

**Environments™ for your spa life**

Marquis® Environments™ surround your Marquis® hot tub with custom Environments™ modules to transform your outdoor living space into your personal hot tub utopia.

Designed and built by Marquis® with the same exacting quality of craftsmanship and durable materials, the Environments™ perfectly complement your hot tub and add a higher level of sophistication to your environment.

Choose from steps, benches, cabinets, counters, shelves, stools, towel bars and even planters to partner up with your Marquis® hot tub!
