## Aquatic Training System

### ROWING

- Rowing Bars

Smooth, low-impact, and non-load bearing, rowing spreads the exercise intensity evenly over the body's three major muscle groups: the torso, legs, and arms. This **even distribution of exercise** helps tone all muscles, instead of just one group.

### STRENGTH TRAINING

- Resistant Cords, Clips, and Handles

Resistance cords are used in the TidalFit pool for curls, tricep extensions, chest presses, shoulder pulls, and back pulls. These upper body exercises are specifically designed to **build strength** and lumbar core stability. The cords vary in size to accommodate beginners to advanced conditioning.

### AQUA TREADMILL

- Stationary Resistant Swim Tether

The resistance swimming tether training system adds dimension to the range of the TidalFit exercise options. The buoyancy of water provides a virtually weightless environment, allowing you to walk with minimal stress on joints and bones. Walking against the resistance of water also increases the rate at which you **burn calories** and strengthen muscles.

## Upgrades

### JET SYSTEMS

Variable Current Swim System (EP-16):

- Powered by Propeller Technology
- 7.5 HP Hydraulic Variable Frequency Drive (VFD)
- 3300 GPM VGB Suction Grate, 316 SS Propeller Construction
- Full Foam with Powder Coated Steel Frame

Quad Swim Jet System (EP-14, EP-15):

- 4 Adjustable Swim Jets (175 GPM rated)
- (2) 4.0 HP 1-Spd 2.5 in. Swim Pumps

Dual Swim Jet System (ActivePlus EP-12):

- 2 Adjustable Swim Jets (175 GPM rated)
- (1) 4.0 HP 1-Spd 2.5 in. Swim Pump

### HYDROTHERAPY SYSTEMS

PowerPlus EP-16:

- DirectFlow® with 26 Helix Jets, 6.0 BHP 1-Spd Pump

Pro EP-15:

- DirectFlow® with 18 Helix Jets, 4.8 BHP 1-Spd Pump
- Optional Twin Bench (8 Helix Jets & 6.0 BHP 1-Spd Pump)

Premium EP-14:

- 28 Helix Jets, 6.0 BHP 1-Spd Pump, BellagioFall Water Feature

ActivePlus EP-12:

- 28 Helix Jets, 6.0 BHP 1-Spd Pump, BellagioFall Water Feature
- Optional Twin Bench, 12 Helix Jets, 3.0 BHP 1-Spd Pump

DIRECTFLOW HYDROTHERAPY OPTION

# The innovative DirectFlow®

the motor and direct plumbing system combined with the Variable Flow Control (VFC) provides the user the ultimate control to alter the massage level desired.

Available on all models, this is the perfect addition to every home workout session. Each workout can now end with a individually controlled hydrotherapy massage to rejuvenate sore muscles.

### • YOU CONTROL •

Custom and Wide Range of Pressure, Flow Rate, and Motor Power (Amperage Draw)

## WiFi App Control

The **WORLDWIDE APP MODULE OPTION**, allows you to access your hot tub using an App on your smart device (Android™ or iPhone®) via a direct connection anywhere in the local proximity of your tub. Gain access anywhere in your house that you can connect to your local WiFi network, or anywhere in the world you have an internet connection to your smart device via 3G, 4G, or WiFi hot spots.

With the App, you can ensure that your hot tub will be ready whenever you want to take a dip. The App provides full interface control so you can set the temperature, turn pumps on and off and even set filtration cycles - all from your smartphone or tablet.

\*The app's cloud access cost is free for the first 12 months and then \$24 per year after. If not renewed after 12 months, the app will continue to operate in local mode only.

SMART SPA CONTROL OPTION

## Crystal AOP™

The Crystal AOP ProPure Advanced Oxidation combines the Nature2® option, Microfiltration, high efficiency Circulation Pump, UVC, Ozone and ProPure Mixer to create the most advanced oxidation process (AOP) for water purification.

### How it works

1. Spa water enters the optional Nature2® stick where silver and copper minerals naturally destroy bacteria.
2. Contaminants are then trapped in the Microfilter.
3. Water is cycled through the high efficiency Circulation Pump filtering water up to 30 gallons per minute.
4. Air enters unit where the UV Bulb converts it to Ozone and Hydroxyls. (Bulb rated 20,000 life hours.)
5. Water enters the AOP Unit through the injector, drawing Ozone and Hydroxyls from the chamber. Static mixer combines water, Ozone and Hydroxyls in a scrambled flow.
6. Water irradiated by Gericidal UVC converts ozone to Hydroxyl Radicals through Advance Oxidation Processing. Contaminants are destroyed by intense Gericidal UVC, Ozone, and Hydroxyl Radicals.
7. Water exits the unit to the ProPure Mixer, where water and air is mixed to keep ozone concentrated and isolated to maximize purification to produce the purest sanitized spa water possible.

## Crystal ProPure™

Water Purification combines the Ozonator, Dynamic Injector, and the ProPure Mixing Chamber. All components work together to create an innovative water purification system.

### How it works

1. The Nature2® option is a patented technology uses silver and copper minerals to naturally destroy bacteria and algae.
2. The Microfiltration removes contaminants such as dirt, metals, and oil by water passage through a microporous membrane.
3. Water is cycled through the high efficiency Circulation Pump filtering water up to 30 gallons per minute.
4. Oxygen Molecules are split by electrodes and then Oxygen Atoms unite with other oxygen molecules to produce high output ozone.
5. The ozone generator produces ozone and the Dynamic Injector then shoots ozone into the ProPure Mixing Chamber, where it mixes with water and air. This chamber keeps the ozone concentrated in a small body of water. The isolated chamber allows the ozone to remain undiluted, hence it can efficiently kill more bacteria, fungi, and viruses than if it was directly injected into the entire spa.
6. Water exits the unit and flows into the spa resulting in clean and Purified spa water.

## About TidalFit Exercise Pools

The TidalFit exercise pool is built to the same world class quality standards that you would expect from the makers of May Manufacturing, LLC, who is renowned throughout the spa industry. Designed with an ideal combination of innovative engineering and artistry, the TidalFit is as constant in quality as it is in efficiency and design. Some of the most discriminating buyers acquire this exercise pool because it is intuitively user friendly, as well as being aesthetically appealing. Simply put, with its quality workmanship and exceptionally attractive features, the TidalFit is in a class of its own.
