

**HotSpring**<sup>®</sup>  
*Portable Spas*

# Feel your absolute best

*“I couldn’t remember the last time I had taken the time to enjoy the view. Then I realized ... my whole family was with me. And they were making eye contact and talking together. Amazing.” — Hot Spring® Owner, New Jersey*

A person with long blonde hair is relaxing in a white Hot Spring spa. The water is bubbling, and the scene is brightly lit, suggesting an outdoor or well-lit indoor setting. The person is partially submerged in the water, and their hair is wet. The background is slightly blurred, showing what appears to be a wooden structure, possibly part of the spa's deck or a nearby building.

## ***Your best day...everyday***

*Each morning we awake with the intention to get the very most out of the day. Once it's over we go to sleep, wake up the next day and start all over again. Before you know it, days turn into weeks, months and years. As life flies by, faster and faster with each passing day, we realize how important it is to cherish the moments that truly matter:*

- ***Feeling a deeper connection with your spouse.***
- ***Enjoying real conversation with your teens.***
- ***Delighting in the sound of your family – together, talking, laughing.***
- ***Taking in the stars on a dark night or the glory of a sunrise and feeling a sense of gratitude.***
- ***Finding a few peaceful minutes for yourself to regain perspective and appreciation of the life you've worked so hard to achieve.***

***These are the moments that matter...Moments you'll never get enough of...  
Moments you'll create every day in your Hot Spring® spa.***

### ***Be Yourself***

A Hot Spring® spa helps you feel better. Soothing massage from powerful jets loosens tight muscles and stimulates the release of endorphins, the body's natural pain killers, to dissolve away the stress and tension. This physical relief gives way to the mental and emotional benefits of soaking in hot water – so you can be your best self. Cradled in the warmth of your Hot Spring spa you can reset and refocus, and ultimately enjoy a sense that all is right in your world.

### ***Be Together***

When you feel your best, you are better able to connect with the people you care about most. For many, a wonderful but often unexpected benefit of spa use is the relaxed, undistracted communication they enjoy with their partner, children and friends. Unhurried and unplugged from technology, comfortable conversation flows easily and brings people closer together.

### ***Be Outside***

We spend most of our time inside – in the workplace, at school, in the car. When we finally pause to take a deep breath of fresh air and stare up at the crisp blue sky or starry night, we remember how good it feels to be outside. With a Hot Spring spa in your backyard you can start each day refreshed and renewed, as you soak up the glowing morning light. Or wind down each evening, under a dark and star-filled night sky. With the sights and sounds of nature as your backdrop, your Hot Spring spa can make every day better.

Feel connected

### **“The Magical Cauldron”**

– Jay Blissick, Kalamazoo, Michigan

*“Some 15 years ago my wife Sandy and I bought a Hot Spring. We began with visions of occasional soothing hydrotherapy after a day of gardening, but as our grandchildren came along we realized that our hot tub had evolved into a magical place, a watery playpen and conversation pit where we shared dreams, talked through problems and connected as a family. Our hot tub time established a special bond with our grandchildren. We feel it. They feel it.”*

*Well, we don't see our grandchildren as often as we'd like nowadays but whenever they visit they still seem to find their way into the hot tub – carefree, laughing and carrying on as ever. When we bought our Hot Spring spa we never imagined the many cherished memories that would be conjured up in that magical cauldron.”*

Jay Blissick and family

### **The Hot Spring® family**

At Hot Spring, we build every spa like we're building it for family because we know it's a place where family memories are made. As a Hot Spring owner you will find that your hot tub becomes an integral part of your life – a place filled with meaningful conversation, laughter, and special moments shared with loved ones. Once you become a hot tubber, you will be amazed at how quickly your Hot Spring spa can become an important part of your everyday routine. We know this because we too are hot tubbers. We invite you to start enjoying the benefits of owning your very own Hot Spring spa.

### **Your perfect hot tub moment**

We know that the experience you are looking for has nothing to do with the hot tub, and everything to do with what happens when you are inside

your Hot Spring spa. So we design our products down to the seemingly smallest details—from the contour of a seat, the pressure of a jet, and even the intensity of a light bulb—with your perfect hot tub moment in mind. We've spent years perfecting innovative features that you may never see or even think about. These features make owning and enjoying your Hot Spring spa worry-free, so you can focus on what matters most.

*Welcome to Hot Spring...*

# Feel confident

*“We enjoy our Hot Spring® spa. Its therapeutic benefit has been tremendous ... but the best part of the experience has been the dealership!”*

*— Hot Spring Owner, Mississippi*

### **Your hot tub connection**

As a Hot Spring spa owner you become connected to a community of hot tubbers that spans the globe. But perhaps the most important connection is the one you'll have with your professional Hot Spring retailer.

### **Do you have questions?**

- How often will I use my hot tub?
- How many seats do I need?
- Which jets are right for me?
- How do I keep the water clean?
- How much will it cost to operate and maintain my hot tub?
- Where should I put my hot tub?
- How do you run the electricity?

Your local Hot Spring retailer has these answers and more!

the perfect hot tub model to fit your lifestyle. And, installing a Hot Spring spa is easier than you might expect. Your retailer will be happy to walk you through the simple steps involved in site preparation, and answer any other questions you have along the way. When you choose a Hot Spring spa you'll enjoy unparalleled service and support before, during, and long after the sale.

### **The best hot tub retailers**

Our experienced and reliable Hot Spring retailers make it easy for you to enjoy your Hot Spring spa. Knowledgeable, friendly and professionally-trained sales consultants will help you select

Hot Spring retailers, sales consultants, and service experts are all important parts of The Absolute Best Hot Tub Ownership Experience®. And, with more than 600 locations in North America, a professional Hot Spring retailer is rarely far away.

The  
**Hot Spring®**  
Advantage

**Exclusive innovation:  
Moto-Massage® DX jet**

The revolutionary  
Moto-Massage DX moving  
jets deliver an unparalleled hydro  
massage experience. Dual nozzles  
direct powerful streams of water  
that sweep up and down the  
entire length of your back. You'll  
feel tension dissolve as the  
stimulating, moving water  
soothes overworked muscles.

Scan to bring the  
Hot Spring jet  
experience to life.

# Feel revitalized

*“I start in the lounge and then move from  
position to position creating a full body  
massage in all areas of need.” — Hot Spring Owner, Ohio*

## Extraordinary jets

Every Hot Spring spa includes a wide variety of exclusive, patented jets to relieve tension in targeted locations like your neck, shoulders, back, calves and feet. Our powerful jets feature stainless steel trim and are carefully positioned to give you an incredible massage. Combined, these soothing jets provide full-body therapy leaving you feeling relaxed and revitalized.

## A custom experience

Your private spa can be personalized to create the massage that is just right for you – from powerful and invigorating to gentle and soothing. Our Comfort Control® system lets you dial in the ideal amount of air and water by simply turning the face of each jet – more for stronger performance, less for a softer touch. Our SmartJet® system lets you divert water to different combinations of jets by turning an easy-to-reach lever.

## Comfort that fits you

Each seat in your spa is created for comfort. Unlike in-ground spas, Hot Spring spa shells are formed to follow the body's natural contours, providing gentle support. This ergonomic seating design allows for ideal jet placement to target specific muscle groups. And multi-level seating means there is a comfortable seat for everyone.

## Jets

### ◀ Precision® jet

Directional and rotary nozzles deliver a therapeutic massage – perfect for your calves and wrists as well as large muscles in your back.

### ◀ Quartet® jet system

Four Precision jets focus on your neck and shoulders for a targeted hydromassage.

### ◀ Soothing Seven® jet

Seven jet nozzles deliver a pulsating and rotating massage to your shoulders and upper back, relieving muscle discomfort where stress and tension impact the body.

### ◀ Hydromassage jet

Select the directional nozzle or interchangeable dual-port rotary nozzle for the massage treatment of your choice.

### ◀ HydroStream® jet

A strong flow of water and air quickly soothes away tension and helps relieve overworked muscles. You'll feel the release as stress dissolves.

### ◀ Jet-Cluster™ system

By directing various jets to work each part of the body, this jet system provides the perfect remedy for daily relief.

### ◀ JetStream® jet

An aching lower back and tired feet benefit from the added power of these invigorating, directional whirlpool jets.

### ◀ FootWell® system

This system provides a maximum-strength foot massage to ease pressure points and get you back in stride.

*The*  
**Hot Spring®**  
*Advantage*

**100% no-bypass  
filtration**

*With up to 325 sq. ft. of effective filtration area, Highlife® Collection spas are the only hot tubs that provide completely balanced, 100% no-bypass filtration. This means that all of the water passes through the filters before it re-enters the spa. In other spas, water bypasses the filters when the jets are on, so unfiltered water is sent back into the spa, just when you need clean water the most. Our exclusive Tri-X® filters make 100% no-bypass filtration possible and are dishwasher-safe, easy to clean, and designed to last much longer than standard paper filters.*

Feel refreshed

*“With very little maintenance I enjoy crystal clear water every day. Top of the line tub.” — Hot Spring Owner, Pennsylvania*

### Clean, hot water

The SilentFlo 5000® circulation pump works silently, continuously and efficiently, filtering your spa water 24 hours a day. It's totally automatic, so there are no cleaning or heating cycles to program. Relax knowing your spa water is hot, clean and ready.

### Water care to fit your life

Taking care of your spa water should be easy. Your knowledgeable Hot Spring retailer will help you choose the water care system that is right for you.

### ACE® Salt Water Sanitizing System

The ACE® salt water system has revolutionized the way hot tub owners care for their spas. This exclusive system makes maintaining spa water simple and more hands-free than ever before, while enhancing water quality and helping spa water last longer. *Turn the page for more on the innovative ACE salt water system.*

FreshWater III high-output ozone

The EverFresh® system utilizes the FreshWater® III high-output ozone system which is standard on all HighLife Collection models. The FreshWater III ozone system continuously injects millions of tiny, highly concentrated ozone bubbles into the water, neutralizing contaminants on contact. Plus, it uses a corona discharge cell that is virtually maintenance free. The EverFresh system combines the cleaning power of ozone with

FreshWater<sub>Ag+</sub> silver ions and MPS non-chlorine oxidizer, so you can enjoy sparkling clear spa water with a minimal amount of chlorine.

Additional FreshWater® water care products are compatible with all Hot Spring water care systems and are available to supplement your water care needs. Always insist on FreshWater products designed specifically for your Hot Spring spa.

### Pure water

Start with the cleanest, easiest-to-maintain water by capturing and removing impurities using the Clean Screen® pre-filter and Vanishing Act® calcium remover. These one-of-a-kind solutions extend the life of the water, and protect your spa's components.

FreshWater<sub>Ag+</sub> silver ion cartridge

## The Hot Spring® Advantage

### Fully integrated

The integrated ACE® system communicates directly with your spa's control panel, making it easy for you to adjust the system as needed.

An illuminated water icon on your control panel and the glowing green On/Ready light on the front of your Hot Spring spa assure you that the ACE system is functioning properly.

You can enjoy peace-of-mind knowing the ACE system is at work keeping your spa water safely sanitized while you relax.

# Feel peace of mind

**ACE®**  
Salt Water Sanitizing System

### Luxurious spa water

With the ACE system your spa water will be sparkling clean and silky soft. The cleaners are generated from salt and water, which means they are gentler than bottled chemicals that may contain harsh additives. Plus, the system breaks down contaminants completely, eliminating byproducts that cause dry itchy skin, irritated red eyes and odor associated with traditional water care. We are confident you will find the quality of your spa water is remarkably better with the ACE system.

### Save time & water

The ACE system automatically generates cleaners in the water based on your needs. This means less time spent measuring and dosing by hand. And, because fewer products are added, the ACE system allows spa water to last much longer than

traditional water care—another way the ACE system saves you time and helps conserve water.

### Diamond technology

The ACE system uses a patented electrode that is formed from diamond crystals. This exclusive technology allows the ACE system to break down water molecules creating “active oxygen”—one of the world’s most effective cleaners. Active oxygen is the first way the ACE system cleans spa water. Then the active oxygen combines with a small amount of salt

in the water to create the chlorine sanitizer and oxidizers needed to keep spa water clean.

### Water care made easy

Only Hot Spring offers an automated, low-maintenance water care solution like the ACE salt water system. The proprietary ACE system is an available option on all Highlife® and Limelight® Collection spas.

Scan here to watch the animated video that shows just how easy water care can be with the ACE system!

*“We purchased the ACE salt water system and it is so easy to maintain and keep the water clean. There is no skin or eye irritation and the water is sparkling clean.” — Hot Spring Owner, Pennsylvania*

# Feel rewarded

*“Energy efficient, comfortable, easy to maintain. Exceeded all our expectations  
...this was not our first spa but it is the best we’ve had.” — Hot Spring® Owner, North Carolina*

## Save energy, save money

Hot Spring leads the industry in the design, engineering, and manufacturing of energy-efficient hot tubs. Every Hot Spring spa is built with a number of energy-efficient features to provide you with extremely low operating costs. You can feel confident that your Hot Spring spa will deliver the very best value over time.

### The Energy Smart® system

- Highlife® Collection models are totally insulated, featuring multiple layers of high density polyurethane foam – the same material used to insulate commercial freezers.

- Limelight® Collection models feature innovative FiberCor™ insulation, which fills the cabinet completely to a density that is 4 times greater than the ½ lb. foam used on most spas.

- We manufacture our spa covers to ensure a custom fit and tight seal to prevent heat loss. Each insulating cover features a dense foam core with high R-value.
- The SilentFlo 5000® circulation pump continuously circulates spa water using less energy to operate than a 40-watt light bulb.
- Dedicated WaveMaster® jet pumps power your jets and are only activated when you need them.
- The SmartJet® system lets you direct water to the specific group of jets you choose which means less horsepower is required and less energy is consumed.
- We design our heaters to maximize the transfer of heat to the water for ultimate efficiency.
- Our patented pump shroud transfers exhaust heat from the equipment compartment to the water to minimize cooling and reduce energy consumption.

- All models feature dimmer-controlled LED lighting that uses less energy than standard light bulbs.

### Energy costs

Hot Spring spas are designed to operate efficiently and save you money. How much will it cost to operate a Hot Spring spa? That depends on the model you own, the temperature you set, your frequency of use, the mean ambient temperature and the cost of electricity where you live. The energy table to the right presents estimated energy consumption of a mid-sized Highlife Collection spa in heavy use.

### We set the standard

No matter where you live, you can be sure your Hot Spring spa is designed to keep operating costs low. Hot Spring has certified all models to the stringent California Energy Commission (CEC) standards, as well as to the national energy efficiency standard for portable spas, APSP 14.

### Monthly Cost Estimates

#### Kilowatt Hours x Rate per Kilowatt Hour

Temp = Approx. Annual Mean Ambient Temp. in Degrees Fahrenheit  
 kWh = Approx. Average Kilowatt Hours per Month to Operate Spa\*  
 Rate = Approx. Average Rate Charged per Kilowatt Hour in Dollars\*\*  
 Cost = Approx. Average Monthly Energy Cost to Operate Spa\*

## The Hot Spring® Advantage

### Designed for ease

Hot Spring spas are designed to provide The Absolute Best Hot Tub Ownership Experience®. There are many standard features and options available that make a Hot Spring spa easy to own:

- Intuitive controls
- Auxiliary control panel
- On/Ready indicator lights
- 24-hour continuous filtration
- No-Fault heater warranty
- Simple water care solutions
- 10-minute clean cycle
- Dishwasher-safe Tri-X® filters
- Everwood® synthetic cabinets
- Convenient floor drain, and much more

*You can relax because your Hot Spring spa does the work – saving you time and effort.*

*“The spa has many features, is easy to use & control and is ALWAYS ready when I need it.”— Hot Spring Owner, California*

### Set it and forget it

The IQ 2020® spa control system makes your Hot Spring spa simple to operate, with no programming required. The main control panel is accessible from inside or outside the spa, and allows you to easily adjust a wide range of features including jets, lighting, wireless entertainment, and much more. To heat your Hot Spring spa, simply decide what water temperature you like, then “set it and forget it.” In the event of a power outage, the spa automatically resumes normal operation once power is restored.

### Ready when you are

With our easy-to-view exterior On/Ready indicator lights, you can see from a distance that your hot tub is on and the water is hot and ready – a real advantage, especially in the winter. The On/Ready lights in the Hot Spring logo on the front of the cabinet are visible even when the

cover is in place. These lights also serve as a convenient diagnostic tool to let you know if your hot tub needs attention.

### No-Fault® heater – no worries

Hot Spring pioneered the concept of an unconditional heater warranty in hot tubs and continues to lead the industry in advanced technology. We use a unique titanium housing and heater element to deliver unmatched corrosion resistance. So unlike other spa warranties, your No-Fault heater warranty is valid for five years – regardless of water chemistry.

### Highlife® control panel

The LCD color display and intuitive menus on the Highlife Collection main control panel make it simple to navigate your spa's features. You'll have it mastered in minutes.

### Limelight® control panel

Advanced features, like the spa lock function and clean up cycle, can be easily accessed through the Limelight Collection main control panel, while dedicated jets and lighting buttons let you quickly adjust the features you'll use the most.

Feel at ease

### ***Create your own space***

Take in the view, sunrises, blue skies and starry nights. Enjoy the crisp fresh air. Listen to the sounds of nature. Just steps away from your hectic day-to-day activities, your hot tub retreat is waiting for you to reconnect with the good things in life.

Enhance the beauty of your backyard with a partial or fully recessed spa, or totally customize your spa by wrapping it in the backyard hardscape or deck materials of your choice.

*SpaStone full surround in Gray with optional step*

### ***Rich SpaStone® surrounds***

The Hot Spring SpaStone full surround option (available on select Highlife models) brings the look of rich stone to above-ground installations. SpaStone is offered in two color palettes: Earth or Gray. Coordinating SpaStone steps complete the look.

The SpaStone partial surround is designed to meet up with your deck or other surface, making it easy to achieve a built-in appearance. An integrated SpaStone step extends the length of the spa and provides a perfect finishing touch.

# Feel transported

*“There’s nothing like soaking in hot water to escape into another dimension and appreciate the natural beauty of the season”*

*— Hot Spring® Owner, New York*

SpaStone partial surround in Earth

## Custom Installation

### Custom options

Did you know that you can experience the comfort and convenience of a self-contained spa, and still enjoy the beauty of a customized backyard design? Our **Custom Cabinet® spas** are like a blank canvas, specifically designed to be surrounded by virtually any style of hardscape you choose to blend harmoniously with your outdoor environment.

Our Custom Installation Guide makes it easy for you to work with your

landscape contractor to surround your Custom Cabinet spa with the material of your choice, or to fully or partially recess any Hot Spring spa in a deck, patio or other surface.

*Ready to create your dream backyard? Scan the QR code to access our Custom Installation Guide and get started.*

# Feel inspired

*“The WOW factor of this spa is the lighting and the fountain. I love the way the underwater color can be set differently than the top lights. The changing color wheel effect is pretty cool. The fountain adds a soothing visual to complete the overall relaxation factor of the spa!!!”*

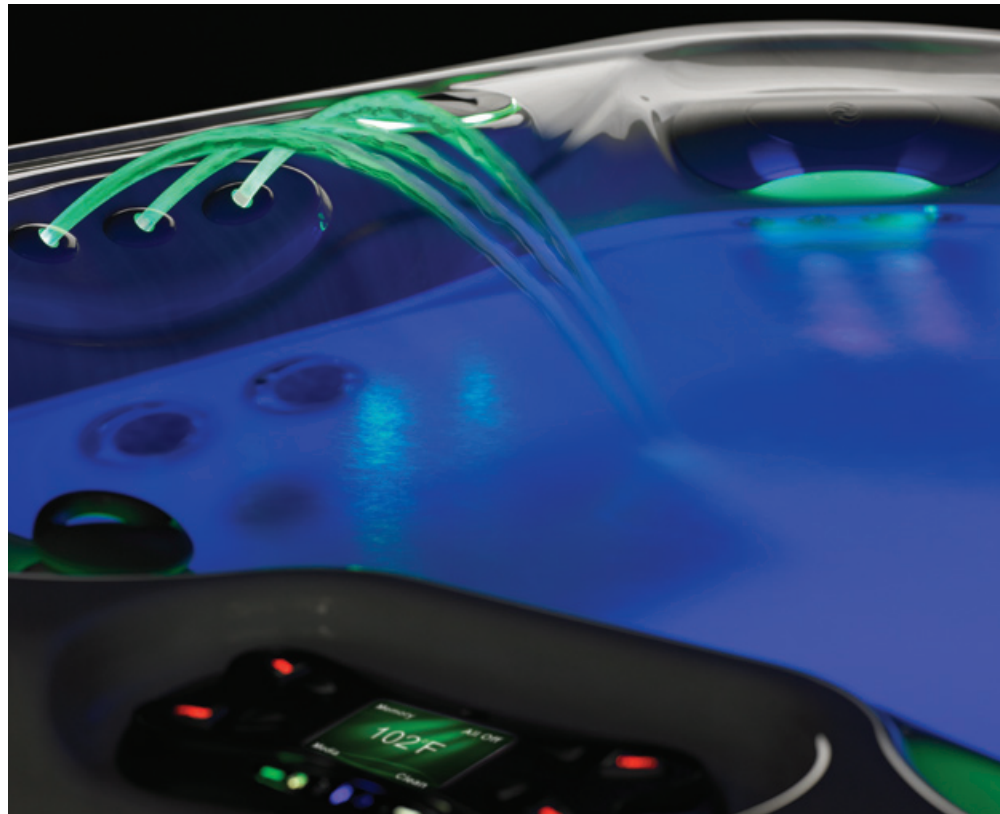

*— Hot Spring® Owner, Colorado*

### ***Illuminate the possibilities***

Both Hot Spring Collections feature contemporary lighting so you can create the perfect ambience to fit your mood.

### ***Luminescence® lighting***

The Highlife Collection models offer an added degree of customization, with four independently controlled lighting zones. Choose the color of the lights above and below the water, and turn any of the four zones on or off to create your ideal lighting scheme.

*Highlife Collection BellaFontana water feature and Luminescence multi-zone lighting system*

### ***Raio® lighting***

The signature Limelight Collection lighting system features multiple points of light, strategically placed to accent interior design. Match color to your mood by selecting the hue and brightness of your choice, or cycle slowly through all six vibrant color options.

*Limelight Collection's Gleam corner sconce*

### ***Exterior lighting***

Create an entertaining atmosphere anytime with exterior lighting on the Limelight Collection Gleam™. Sleek sconces illuminate all four corners of the spa with multi-color LED lighting. The exterior lights can be set to automatically turn on for four hours each evening.

## ***Lighting & Water Features***

### ***Liquid tranquility***

The sights and sounds of moving water can be exceptionally calming and peaceful. A variety of Hot Spring water features are offered to enhance your relaxation experience.

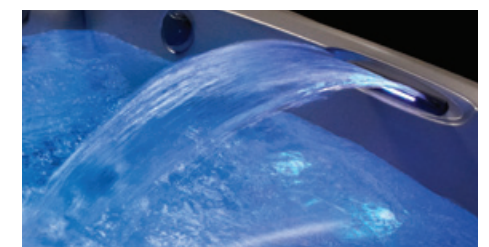

### ***Highlife® Collection***

The unique BellaFontana® water feature (left) creates three illuminated arcs of water to delight your senses. The SoothingStream® water feature (below) provides the calming sound of flowing water.

### ***Limelight® Collection***

The Vidro® water feature's illuminated arc of water (below) adds beauty and ambiance to your spa experience.

# Feel the mood

*“When you put the music on, and set the lights under the stars, you’ve entered another zone.”*

*— Hot Spring® Owner, Maryland*

### **Listen, watch and enjoy**

Hot Spring spas are “entertainment-ready.” These dealer-installed options can be added at any time!

### **Wireless TV and sound system**

With our exclusive Wireless TV option you can easily transmit your favorite show to the hot tub without running cable to your spa. The 17” widescreen LCD TV is waterproof, temperature resistant and rotates so you can enjoy viewing from almost anywhere in your yard.

*Hot Spring Highlife Collection Vanguard® with wireless TV and sound system*

### **In-home wireless sound system**

With our exclusive in-home wireless sound system, you can leave your music source securely inside your home while enjoying your favorite music in your Hot Spring spa. Connect with virtually any audio source you choose: iPod®, iPhone®, MP3 player, satellite/AM/FM radio, CD/DVD player and instantly transmit the sound to

your hot tub. Through the spa’s main control panel you can adjust volume, as well as track when using your Apple® device. The in-home dock features a convenient line out plug that let’s you play music through your in-home audio system, as well.

*iPod® dock for in-home wireless sound system*

## **Entertainment**

### **Sound System with Bluetooth® wireless technology**

Whether you choose to stream music live, or have your own library of downloaded tunes, this entertainment system allows you to conveniently enjoy music from your *Bluetooth* enabled device at the spa, using *Bluetooth* wireless technology.

### **MP3 sound system**

Integrated into the spa cabinet, the MP3 player features an iPod dock and auxiliary input for other MP3 players. A waterproof remote provides control of iPod track and volume from inside or around your spa.

# Feel complete

## **Use it more**

Hot Spring Necessaries® are the accessories you need to get the most out of your Hot Spring ownership experience. Because they are designed specifically for your Hot Spring spa, Necessaries are the perfect complement allowing you to enjoy your spa more often. Use of aftermarket accessories not designed for your spa can actually damage your spa, while exclusive Hot Spring Necessaries enhance your experience and help extend the life of your spa components.

*Everwood step in Espresso finish, umbrella in creme*

## **Easy access steps**

Exclusive steps beautifully complement your Hot Spring spa and allow for safe entry and exit.

## **Everwood® step**

Made from the same rigid polymers as your Hot Spring spa cabinet, a matching Everwood step requires very little maintenance.

*Everwood step in Coastal Gray finish*

## **Polymer step**

The durable, lightweight polymer step provides a stable entry point into your hot tub and is recyclable at the end of its life.

*Polymer step in Redwood finish*

## **SpaStone® step**

With an extra-large surface area, rich textures and colors, the SpaStone step is a must-have for spas featuring the SpaStone full surround, and is a stylish accent for spas with the Everwood cabinet.

*SpaStone step in Earth finish*

### Convenient cover lifters

Our cover removal systems, specifically designed to work with your Hot Spring cover, make accessing your spa quick and easy. These patented designs eliminate the need to drag the spa cover on and off with each use and help to extend the life of the cover.

### CoverCradle® cover lifters

These top-of-the-line cover removal systems feature a low-profile design and ultra-smooth gliding mechanism. The CoverCradle uses dual pneumatic gas springs to make cover removal a breeze, while the CoverCradle II uses a single pneumatic gas spring. Both require 24" clearance.

### UpRite® cover lifter

Ideal for limited clearance applications such as decks and gazebos, the UpRite cover lifter provides an added element of privacy when the hot tub is in use. Requires only 7" clearance.

UpRite cover lifter

### Lift'n Glide® cover lifter

Using the Lift'n Glide cover lifter is as simple as it sounds – lift the cover, glide it back and then open for quick, convenient access to your Hot Spring spa. Requires 14" clearance.

Lift'n Glide cover lifter

CoverCradle cover lifter

Scan here to learn more about our cover removal systems that help extend the life of your cover!

# Feel satisfied

*“The quality and workmanship of this spa is unbeatable. Ours is 8 years old and looks brand new. Other than regular maintenance items it has been trouble free”*

*— Hot Spring® Owner, North Carolina*

### The Earth Smart® spa

We believe in manufacturing environmentally-friendly spas with features that help minimize both energy use

and water consumption. And, as environmental stewards, we think Green in all aspects of our business:

- Through an Ecovaluation™ event we've significantly decreased our carbon dioxide emissions – the equivalent of planting 374 acres of trees.
- Over 3.5 million pounds of materials are recycled annually.
- Enhancements to system controls at our manufacturing facility enable Hot Spring to save one million gallons of water each year.
- The Hot Spring manufacturing facility produces its own power 24/7 using clean-burning natural gas.
- As a SmartWay Transport Partner Watkins is committed to clean, more efficient transportation.
- Member of the U.S. Green Building Council & The Alliance for Water Efficiency.
- Use high post-consumer recycled content in spa packaging, insulation, and printed materials.

*Don't take our word for it! Read reviews from real people just like you.*

### A name you can trust

Hot Spring spas can be found in hundreds of thousands of backyards around the world. We are the brand of choice in all 50 states, Canada and almost 70 countries around the world. We are proud to share what our family of owners have to say about their experiences in the Ratings & Reviews section of our website and in their actual quotes throughout this brochure. With so many satisfied customers, you can have peace of mind knowing that you've selected a brand that will be here to support you throughout your ownership experience.

### Ongoing innovation

Hot Spring leads the industry in state-of-the-art design and energy efficient performance. Many of the innovations that were first introduced by Hot Spring are now used industry-wide. With more than 118 US patents and many exclusive features found only on Hot Spring spas, you can trust that we are constantly innovating to bring you The Absolute Best Hot Tub Ownership Experience®.

Here are just a few of the features that set Hot Spring spas apart:

- Hot Spring was the first to introduce: Full-foam insulation; circulation pumps; two-pump spas; synthetic-wood cabinets; a No-Fault® heater and a 5-year limited spa warranty.
- The exclusive Moto-Massage® jet was the first moving jet in the industry, and now nearly every spa features jets that spin or rotate.
- The exclusive ACE® salt water system has dramatically simplified the way hot tub owners care for spa water.
- Innovative FiberCor™ insulation makes Limelight® Collection models more energy efficient than other spas typically insulated with 1/2 lb. density foam.

# Highlife® Collection

## Exclusive Highlife Features

### Advanced Engineering for Ultimate Enjoyment

The Highlife Collection of Hot Spring® spas is designed to provide ultimate enjoyment, ultimate ease, ultimate endurance and ultimate energy efficiency. Through advanced engineering we deliver innovations like our intuitive controls that make operating your hot tub simple, 100% no-bypass filtration for water that is filtered 100% of the time, and multiple layers of foam insulation for extremely low operating costs. These exclusive features are just a few of the reasons why more people worldwide have chosen Hot Spring spas than any other brand.

Gray SpaStone

### ◀ Cover

Every Highlife Collection cover is UL classified in accordance with ASTM safety standards. Your cover includes child resistant safety locks that can be locked with a key and reinforced, adjustable straps that help keep your cover securely in place.

With intuitive menus and an LCD screen, you'll have the **Highlife controls** mastered in minutes

Create a customized ambiance with **Luminescence multi-color zone lighting** throughout the spa.

**Easy-to-see indicator** lights lets you know your hot tub is on, and the water is hot and ready.

The exclusive **BellaFontana® water feature** creates three elegant, illuminated arcs of water.

Our **SilentFlo 5000® circulation pump** and multiple layers of high density foam insulation minimize operating costs

# Limelight® Collection

## Exclusive Limelight Features

### Contemporary Style with Exceptional Performance

The Limelight Collection delivers quality and performance with breathtaking contemporary style. Designed with sophisticated sculpting throughout the shell, stunning points of multi-color lighting, and powerful jets for invigorating massage, you can sit back and relax knowing you've chosen the best – a Hot Spring® spa.

Gleam™

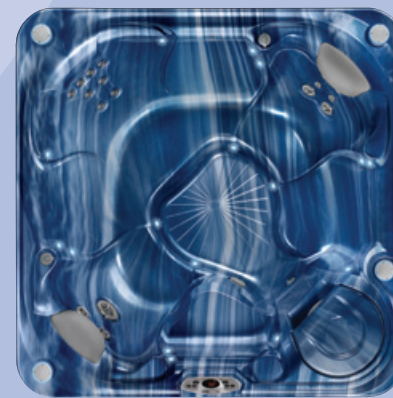

Pulse®

Flair®

Glow®

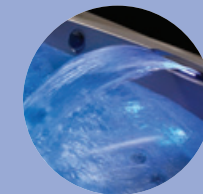

Bolt™

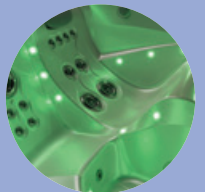

Sparkling clean, silky soft spa water made easy with the optional **ACE® salt water system**.

The patented **Moto-Massage® DX** jet's warm streams of water sweep up and down your back. (Gleam model only)

The illuminated **Vidro® water feature** adds beauty to your spa experience.

Match color to your mood with the **Raio® lighting** system's multiple points of multi-color lighting.

An **easy-to-see indicator** light lets you know your hot tub is on, and the water is hot and ready.

Limelight controls provide quick access to functions you'll adjust often, like jets and lighting.

Our **SilentFlo 5000<sup>®</sup> circulation pump** and innovative FiberCor™ insulation applied at high density level help keep energy costs low.

Our **No-Fault<sup>®</sup> heater** provides unmatched corrosion resistance and is covered by five year warranty – regardless of water chemistry.

Champagne Opal

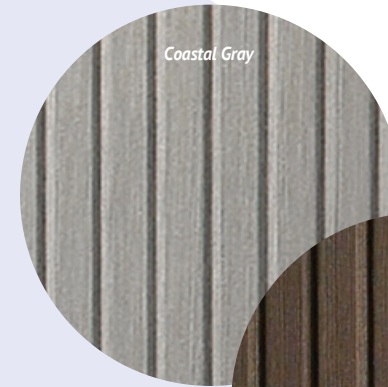

Pearl

Sterling Marble

Ocean Wave

### ◀ Shell

With clean lines and flowing curves, the acrylic shell is beautiful in appearance, and built using a two-stage process for strength and durability. Eye-catching details include the stylized bartop, custom jet recesses, and vibrant stainless steel jet trim.

Coastal Gray

Espresso

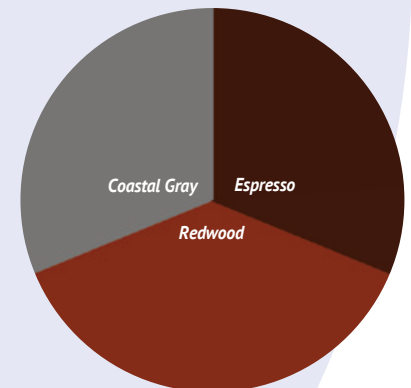

Redwood

### Cabinet ▶

The exclusive Everwood cabinet delivers low maintenance and high durability, and comes with a five-year limited warranty. The embossed wood-grain look provides the natural warmth and beauty of wood.

### Cover ▶

Every Limelight Collection cover is UL classified in accordance with ASTM safety standards. Your cover includes child resistant safety locks that can be locked with a key and reinforced, adjustable straps that help keep your cover securely in place.

Coastal Gray

Espresso

Redwood

*"I also can't speak highly enough about all of the different therapy seats!  
One of the reasons I wanted a larger spa was for entertaining  
and it doesn't disappoint." — Hot Spring® Owner, Maine*

# Feel secure

## Integrity and Strength

At Hot Spring® we foster a culture of integrity that reflects our commitment to excellence and to serving our customers. As demonstrated by how we conduct business, value our customers and stand behind our products, our consistent fulfillment of this commitment has made us the industry leader and a strong resilient company.

## Over One Million Hot Tubs

Founded in 1977, Watkins Manufacturing Corporation, the makers of Hot Spring spas is the global hot tub leader and has built more than one million hot tubs. Watkins is an award-winning employer, often recognized for workplace excellence. The team is strong and experienced, with an average employee tenure exceeding thirteen years. The unmatched experience of Hot Spring as a company means unsurpassed quality and long-term reliability for you and your family.

*“We are not afraid to invest in ‘invisible’ features that improve the quality, performance or safety of our products for the long-term, even if those features might cost more or be hard to see in the showroom.”*

*— Steve Hammock, president  
Watkins Manufacturing Corporation*

## Committed to quality

We are passionate about making the world’s best hot tubs and are consistently recognized for outstanding quality and value.

Hot Spring is the only manufacturer to have one of its spas named a Best Buy each of the seven times Consumers Digest has rated spas.

We have earned SpaSearch Certification, for providing a superior ownership experience, every year since the award’s inception.

The quality system at our Highlife Collection production facility is certified by Lloyd’s Register in accordance with ISO 9001:2008, the highest international standard for design and manufacturing excellence.

Watkins Manufacturing Corporation is part of Masco, a Fortune 500 company whose family of quality home products include:

**Hot Spring® Spas established the industry standard of a 5 year component warranty in 1989. Our warranty remains comprehensive and straightforward. We are proud to disclose in detail before you purchase. It's our pledge of quality to you.**

# Highlife® and Limelight® Collection Limited Warranty Coverage

Watkins Manufacturing Corporation ("Watkins") warrants to the original consumer purchaser ("you") the following about your new Highlife Collection & Limelight Collection Hot Spring® portable spa, when purchased from an authorized dealer/service provider ("dealer").

## Highlife® Collection

**7 Year No Leak and Shell Surface Warranty**  
Watkins warrants the acrylic surface material of the Hot Spring portable spa to be free from defects in materials and workmanship for seven years. Additionally, the acrylic surface material is structurally warranted not to leak for a period of seven years. The acrylic surface material is non-permeable and will not absorb odors, bacteria or pollutants.

**5 Year No Leak Plumbing Warranty**  
Watkins warrants the Hot Spring spa against leaks caused by defects in manufacturing and workmanship for five years. This warranty specifically covers leaks from the wall fittings, jet fittings, internal plumbing, internal glue joints, drains, hoses, and all bonded parts.

**5 Year Component Warranty**  
Watkins warrants the electrical components, pumps, Moto-Massage® jets, air valves, levers, bezels and other Hot Spring spa components against defects in materials and workmanship for five years. Some parts, most of which can be changed out without the use of tools, such as filter cartridges, filter lid, spa pillows and cover locks, are not included in this warranty, but are warranted to be free from defects in materials and workmanship at the time of delivery. Spa covers and other spa accessories are specifically excluded from this warranty, although they may be covered by other warranties. Please check with your Hot Spring dealer for details.

**5 Year No-Fault® Heater Warranty**  
Watkins unconditionally warrants the No-Fault heater to be free from defects in materials and workmanship for five years. This warranty defines unconditional, with the exclusion of commercial or industrial use, and improper installation, as warranty coverage provided that the component has failed to operate properly within the spa's system.

**5 Year Everwood® Cabinet Warranty**  
Watkins warrants the Everwood cabinet material to be free from defects in materials and workmanship for five years. This warranty specifically covers the cabinet's structural integrity (exclusive of surface stain), including the material and assembly. The Everwood cosmetic finish is warranted to be free from defects in materials and workmanship at the time of initial delivery. Fading and weathering of the surface will occur naturally over time, and are not defects. To restore the appearance of the Everwood cabinet, refer to the spa Owner's Manual for proper care and maintenance instructions.

**3 Year SpaStone® Cabinet Warranty**  
Watkins warrants the SpaStone cabinet material to be free from defects in material for three years. This warranty specifically covers peeling, cracking or shrinking for three years. The SpaStone cabinet's cosmetic finish and workmanship is warranted to be free from defects at the time of initial delivery to the original consumer purchaser. Fading and weathering of the surface will occur naturally over time, and are not considered to be warrantable defects. The plywood siding on the Custom Cabinet (CC) spa is specifically excluded from this warranty, although it is warranted to be free from defects in materials and workmanship at the time of delivery. Please refer to the spa Owner's Manual for proper maintenance instructions.

**2 Year Light Assembly Warranty**  
Watkins warrants the LED light assemblies, which consists of all lights within the spa, including the underwater and bartop lighting, to be free from defects in materials and workmanship for two years.

**1 Year FreshWater® III Ozone Warranty**  
Watkins warrants the electrical components, ozone tubing, check valve, injector, corona discharge cell and exterior housing of the FreshWater III corona discharge ozone purification system against defects in material and workmanship for one year.

## Limelight® Collection

**7 Year No Leak Shell Warranty**  
Watkins warrants against water loss due to defects in the hot tub shell for seven years.

**5 Year Shell Surface Warranty**  
Watkins warrants the surface material of the Limelight Collection Hot Spring spa to be free from defects in materials and workmanship for five years.

**5 Year No Leak Plumbing Warranty**  
Watkins warrants the Limelight Collection Hot Spring spa against leaks caused by defects in manufacturing and workmanship for five years. This warranty specifically covers leaks from the wall fittings, jet fittings, lighting system fittings, internal plumbing, internal glue joints, drains, and all bonded parts.

**5 Year Component Warranty**  
Watkins warrants the electrical components, pumps, Moto-Massage® jets, air valves, levers, bezels and other Hot Spring spa components against defects in materials and workmanship for five years. Some parts, most of which can be changed out without the use of tools, such as filter cartridges, filter lid, hot tub pillows and cover locks, are not included in this warranty, but are warranted to be free from defects in materials and workmanship at the time of delivery. Hot tub covers and other hot tub accessories are specifically excluded from this warranty, although they may be covered by other warranties. Please check with your Hot Spring dealer for details.

**5 Year No-Fault® Heater Warranty**  
Watkins unconditionally warrants the No-Fault heater to be free from defects in materials and workmanship for five years. This warranty defines unconditional, with the exclusion of commercial or industrial use, and improper installation, as warranty coverage provided that the component has failed to operate properly within the hot tub's system.

**5 Year Everwood® Cabinet Warranty**  
Watkins warrants the Everwood cabinet material to be free from defects in materials and workmanship for five years. This warranty specifically covers the cabinet's structural integrity and basepan (exclusive of surface stain), including the material and assembly. The Everwood cosmetic finish is warranted to be free from defects in materials and workmanship at the time of initial delivery. Fading and weathering of the surface will occur naturally over time, and are not defects. To restore the appearance of Everwood cabinet, refer to the hot tub Owner's Manual for proper care and maintenance instructions.

**3 Year Light Assembly Warranty**  
Watkins warrants the LED light assemblies, which consists of all lights within the hot tub and lighting of any water feature, to be free from defects in materials and workmanship for three years.

**1 Year Music Sound System & Speakers Warranty**  
Watkins warrants to the original consumer purchaser, at retail, that the components of the Integrated MP3 Sound System and speakers, or wireless components, subwoofer, speakers and amplifier (if applicable) will be free from defects in material and workmanship for one year from the original sound system and speakers purchase.

The following applies to all the warranties listed:

**Extent of Warranty** This warranty extends only to the original consumer purchaser of the Hot Spring spa when purchased and originally installed within the boundaries of the United States. This warranty begins on your delivery date of the spa, but in no event later than one year from the date of purchase. This warranty terminates upon any transfer of ownership, or if the spa is installed or relocated outside the boundaries of the United States by the original consumer purchaser prior to the expiration of the warranty period.

**Warranty Performance** To make a claim under this warranty, contact your dealer. In the event you are unable to obtain service from the dealer, please contact Watkins Manufacturing Corporation, at 1280 Park Center Drive, Vista, California, 92081, Attn: Customer Service Department (800) 999-4688 or via e-mail, [custsvc@watkinsmfg.com](mailto:custsvc@watkinsmfg.com). You must give Watkins and/or your dealer written notice of any warranty claim, along with a copy of your original purchase receipt indicating the date of the purchase, within ten (10) days of the time you discover the claim. Watkins reserves the right to inspect the malfunction or defect on location. Watkins or its Authorized Service Agent will repair any defects covered by this warranty. Except as described herein, you will not be charged for parts, labor or the freight costs for parts necessary to repair the spa for defects covered by this warranty. In some cases, the servicing dealer may charge you a reasonable repairperson travel/service charge that is not covered by this warranty. Please contact the dealer for information regarding any such charges.

**Limitations** Except as described above, this warranty does not cover defects or damage due to normal wear and tear, improper installation, alteration without Watkins' prior written consent, accident, acts of God, misuse, abuse, commercial or industrial use, use of an accessory not approved by Watkins, failure to follow Watkins' Pre-Delivery Instructions or Owner's Manual, or repairs made or attempted by anyone other than an authorized representative of Watkins. Alteration includes, but is not limited to, any component or plumbing change, or electrical conversion. Visit [www.hotspring.com](http://www.hotspring.com) or contact your dealer for a list of manufacturer approved accessories.

**Disclaimers** TO THE EXTENT PERMITTED BY LAW, WATKINS SHALL NOT BE LIABLE FOR LOSS OF USE OF THE SPA OR OTHER INCIDENTAL OR CONSEQUENTIAL COSTS, EXPENSES, OR DAMAGES, INCLUDING BUT NOT LIMITED TO THE REMOVAL OF ANY DECK OR CUSTOM FIXTURE OR ANY COST TO REMOVE OR REINSTALL THE SPA, IF NEEDED. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you. ANY IMPLIED WARRANTIES, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THE APPLICABLE WARRANTY STATED ABOVE. Some states do not allow limitations on how long an implied warranty may last, so the above limitations may not apply to you.

**Legal Remedies** This warranty gives you specific legal rights, and you may have other rights which vary from state to state.
